INTERIM REVIEW REPORT ON INTERIM FINANCIAL INFORMATION

(Convenience translation of the independent auditor's report originally issued in Turkish, See Note I of Section Three)

To the Board of Directors of Pasha Yatırım Bankası A.Ş.;

Introduction

We have reviewed the unconsolidated balance sheet of Pasha Yatırım Bankası A.Ş. ("the Bank") at 30 June 2015 and the related unconsolidated income statement, unconsolidated statement of income and expense items under shareholders' equity, unconsolidated statement of changes in shareholders' equity, unconsolidated statement of cash flows and a summary of significant accounting policies and other explanatory notes to the unconsolidated financial statements for the six-month-period then ended. The Bank Management is responsible for the preparation and fair presentation of interim financial statements in accordance with the "Regulation on Accounting Applications for Banks and Safeguarding of Documents" published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 "Interim Financial Reporting" other than subjects regulated by BRSA Accounting and Reporting Legislation. Our responsibility is to express a conclusion on these interim financial statements based on our review.

Scope of Review

We conducted our review in accordance with the International Standard on Review Engagements (ISRE) 2410, "Limited Review of Interim Financial Information Performed by the Independent Auditor of the Entity". A review of interim financial information consists of making inquiries, primarily of persons responsible for financial reporting process, and applying analytical and other review procedures. A review of interim financial information is substantially less in scope than an independent audit performed in accordance with the Independent Auditing Standards and the objective of which is to express an opinion on the financial statements. Consequently, a review of the interim financial information does not provide assurance that the audit firm will be aware of all significant matters which would have been identified in an audit. Accordingly, we do not express an opinion.

Conclusion

Based on our review nothing has come to our attention that causes us to believe that the accompanying unconsolidated financial statements do not give a true view of the financial position of Pasha Yatırım Bankası A.Ş. at 30 June 2015 and of the results of its operations and its cash flows for the six-month-period then ended in all aspects in accordance with the “Regulation on Accounting Applications for Banks and Safeguarding of Documents” published in the Official Gazette no.26333 dated 1 November 2006, and other regulations on accounting records of Banks published by Banking Regulation and Supervision Agency and circulars and interpretations published by Banking Regulation and Supervision Authority, (together referred as BRSA Accounting and Reporting Legislation) and Turkish Accounting Standard 34 “Interim Financial Reporting” other than subjects regulated by BRSA Accounting and Reporting Legislation.

Additional Paragraph for Convenience Translation:

The effects of differences between accounting principles and standards explained in detail in Section Three and accounting principles generally accepted in countries in which the accompanying unconsolidated financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in the accompanying unconsolidated financial statements. Accordingly, the accompanying unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

SECTION THREE

EXPLANATIONS ON ACCOUNTING POLICIES

I. BASIS OF PRESENTATION

- a. The unconsolidated financial statements are prepared in accordance with the “Regulation on the Principles and Procedures Regarding Banks’ Accounting Applications and Safeguarding of Documents”:**

The Bank prepares its financial statements and notes according to Communiqué on Banks’ Accounting Practice and Maintaining Documents, Turkish Accounting Standards (TAS) enacted by Public Oversight Accounting and Auditing Standards Authority (POA), Turkish Financial Reporting Standards (TFRS) and related additions and comments (all “Turkish Financial Reporting Standards or TFRS) to , other regulations, communiqués and circulars in respect of accounting and financial reporting and pronouncements made by Banking Regulation and Supervision Agency (BRSA), Turkish Commercial Code and Tax Legislation.

The preparation of unconsolidated financial statements in conformity with TAS requires the use of certain critical accounting estimates by the Bank management to exercise its judgment on the assets and liabilities of the balance sheet and contingent issues as of the balance sheet date. These estimates are being reviewed regularly and, when necessary, suitable corrections are made and the effects of these corrections are reflected to the income statement.

- b. The accounting policies and valuation principles applied in the preparation of these financial statements and valuation principles:**

The accounting policies and valuation principles applied in the preparation of these financial statements and valuation principles are defined and applied in accordance with TAS. Those accounting policies and valuation principles are explained below.

- c. Additional paragraph for convenience translation into English:**

The differences between accounting principles, as described in these preceding paragraphs and accounting principles generally accepted in countries in which these financial statements are to be distributed and International Financial Reporting Standards (“IFRS”) have not been quantified in these unconsolidated financial statements. Accordingly, these unconsolidated financial statements are not intended to present the financial position, results of operations and changes in financial position and cash flows in accordance with the accounting principles generally accepted in such countries and IFRS.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

II. EXPLANATIONS ON STRATEGY OF USING FINANCIAL INSTRUMENTS AND FOREIGN CURRENCY TRANSACTIONS

The general strategy of the Bank of using financial instruments is to sustain an optimal balance between the yield of the instruments and their risks. The most important funding source of the Bank is internal funding, in addition external funding including funding from repo transactions and borrowing from foreign financial institutions is utilised. Funds obtained from internal and external sources are invested in high yield and quality financial assets and currency, interest rate and liquidity risks are being kept within the limits following the asset-liability management strategy. The currency, interest and liquidity risks of on-balance sheet and off-balance sheet assets and liabilities are managed in accordance with the risk limits accepted by the Bank and the related legal limits. Derivative instruments are mainly utilised for liquidity needs and for mitigating currency and interest rate risks. The position of the Bank as a result of foreign currency activities being held at minimum levels and the exposed currency risk is followed within the determined levels by the Board of Directors by considering the limits given by the Banking Law.

Foreign currency denominated monetary assets and liabilities are translated with the Bank's foreign currency bid rates prevailing at the balance sheet date. Gains and losses arising from such valuations are recognised in the income statement under the account of "Foreign exchange gains or losses".

III. EXPLANATIONS ON INVESTMENT ON ASSOCIATES, SUBSIDIARIES AND JOINT VENTURES

Derivative instruments are classified either as "Hedging Derivative Financial Instruments" or "Trading Derivative Financial Instruments" in accordance with the "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement ("TAS 39")". Certain derivative transactions, even though they provide effective economic hedges under the Bank's risk management position, do not qualify for hedge accounting under the specific rules in TAS 39 and are therefore treated as "Financial assets at fair value through profit or loss".

IV. EXPLANATIONS ON FORWARD TRANSACTIONS, OPTIONS AND DERIVATIVE INSTRUMENTS

The Bank does not have any embedded derivative instruments.

Derivative instruments are classified either as "Hedging Derivative Financial Instruments" or "Trading Derivative Financial Instruments" in accordance with the "Turkish Accounting Standard for Financial Instruments: Recognition and Measurement ("TAS 39")". Certain derivative transactions, even though they provide effective economic hedges under the Bank's risk management position, do not qualify for hedge accounting under the specific rules in TAS 39 and are therefore treated as "Financial assets at fair value through profit or loss".

Derivative instruments are measured at fair value on initial recognition and subsequently remeasured at their fair values. If the fair value of derivative financial instruments is positive, it is disclosed under the main account "Financial assets at fair value through profit or loss" in "Trading derivative financial instruments" and if the fair value difference is negative, it is disclosed under "Trading derivative financial liabilities". The fair values of the derivative financial instruments are calculated by using quoted market prices or by using discounted cash flow models. Liabilities and receivables arising from the derivative instruments are followed in the off-balance sheet accounts from their contractual values.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

V. EXPLANATIONS ON INTEREST INCOME AND EXPENSE

Interest income and expenses are recognised in the income statement on an accrual basis. The Bank ceases accruing interest income on non-performing loans and, any interest income accruals from such loans are being reversed and no income is accounted until the collection is made. Only cash collections regarding non-performing loans are recorded as interest income.

VI. EXPLANATIONS ON FEE AND COMMISSION INCOME AND EXPENSE

All fees and commissions income/expenses are recognised on an accrual basis, except for certain commission income and fees from various banking services which are recorded as income at the time of collection.

Fees and commissions expenses paid to the other institutions regarding financial liabilities are considered a component of interest expense of the related funding and are recognised as transaction costs and recorded as expense in the statement of profit and loss.

Contract-based fees or fees received in return for services such as the purchase and sale of assets on behalf of a third or legal person are recognised as income at the time of collection.

VII. EXPLANATIONS ON FINANCIAL ASSETS

The Bank classifies and accounts its financial assets as “Fair value through profit or loss”, “Available-for-sale”, “Loans and receivables” or “Held-to-maturity”. Sales and purchases of the financial assets mentioned above are recognised at the “settlement dates”. The appropriate classification of financial assets of the Bank is determined at the time of purchase by the Bank management, taking into consideration the purpose of holding the investment.

a. Financial assets at fair value through profit or loss:

Financial assets are classified either as “Financial assets at fair value through profit or loss” or “Trading financial assets”.

Trading financial assets are either acquired for generating profit from short-term fluctuations in the price or dealer’s margin, or are the financial assets included in a portfolio in which a pattern of short-term profit making exists independent from the acquisition purpose.

Sales and purchases of trading financial assets are recognised at the “settlement dates”. Trading financial assets are initially recognised at fair value plus transactions costs and are subsequently re-measured at their fair value. All gains and losses arising from these evaluations are recognised in the income statement. Interest earned while holding financial assets is reported as interest income and dividends received are included separately in dividend income.

Derivative financial instruments are treated as trading financial assets unless they are not designated as hedge instruments. The principles regarding the accounting of derivative financial instruments are explained in detail in Note IV of this section.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS
AT 30 JUNE 2015**

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

b. Available-for-sale financial assets:

Available-for-sale financial assets are defined as financial assets other than the ones classified as "Loans and receivables", "Held-to-maturity assets" or "Financial asset at fair value through profit or loss".

Government bonds included in the available-for-sale financial assets are subsequently re-measured at fair value. "Unrealised gains and losses" arising from changes in the fair value of financial assets classified as available-for-sale are recognised in the shareholders' equity as "Marketable Securities Valuation Reserve", until there is a permanent decline in the fair values of such assets or they are disposed of. When these financial assets are disposed of or impaired, the related fair value differences accumulated in the shareholders' equity are transferred to the income statement.

Available-for-sale equity securities that have a quoted market price in an active market and whose fair values can be reliably measured are carried at fair value. Available-for-sale equity securities that do not have a quoted market price in an active market and whose fair values cannot be reliably measured are carried at cost, less provision for impairment.

c. Loans and receivables:

Loans and receivables are financial assets which are created by providing money, services or goods to a debtor. Loans and receivables originated by the Bank are carried initially at cost and subsequently recognised at the amortised cost value calculated using the effective interest method. The expenses incurred for the assets received as collateral are not considered as transaction costs and are recognised in the expense accounts.

The Bank provides general and specific provisions based on the assessments and estimates of the management, by considering the "Communiqué Related to Principles and Procedures on Determining the Qualifications of Banks' Loans and Other Receivables and the Provision for These Loans and Other Receivables" published in the Official Gazette No. 26333 dated 1 November 2006. Apart from specific provisions, the Bank has general loan loss provision within the scope of the stated regulations.

d. Held-to-maturity financial assets:

Held-to-maturity financial assets are assets that are not classified under loans and receivables, with fixed maturities and fixed or determinable payments where management has the intent and ability to hold the financial assets to maturity. Held-to-maturity financial assets are initially recognised at cost. Held-to-maturity securities are carried at "amortised cost" net of impairment using the effective interest method after their recognition. Interest income earned from held-to-maturity financial assets is reflected to the statement of income.

The Bank does not have any held-to-maturity financial assets. There are no financial assets that were previously classified as held-to-maturity but which cannot be subject to this classification for two years due to the violation of classification principles.

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

VIII. EXPLANATIONS ON IMPAIRMENT OF FINANCIAL ASSETS

The Bank assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. Where the estimated recoverable amount of the financial asset, being the present value of the expected future cash flows discounted based on the effective interest method, or the fair value if one exists is lower than its carrying value, then it is concluded that the asset under consideration is impaired. A provision is made for the diminution in value of the impaired financial asset and it is charged against the income for the year.

IX. EXPLANATIONS ON OFFSETTING FINANCIAL ASSETS

Financial assets and liabilities are offset and the net amount is reported in the balance sheet when the Bank has a legally enforceable right to offset the recognised amounts and there is an intention to collect/pay related financial assets and liabilities on a net basis, or to realise the asset and settle the liability simultaneously.

X. EXPLANATIONS ON SALES AND REPURCHASE AGREEMENTS AND SECURITIES LENDING TRANSACTIONS

Securities subject to repurchase agreements (“Repo”) are classified as “Financial assets at fair value through profit or loss”, “Available-for-sale” and “Held-to-maturity” according to the investment purposes of the Bank and measured according to the portfolio to which they belong. Funds obtained from repurchase agreements are accounted under “Funds Provided under Repurchase Agreements” in liabilities and the difference between the sale and repurchase price is accrued over the life of repurchase agreements using the effective interest method.

Funds given against securities purchased under agreements (“Reverse repo”) to resell are accounted under “Receivables from Reverse Repurchase Agreements” on the balance sheet. The difference between the purchase and determined resell price is accrued over the life of repurchase agreements using the “effective interest method”.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS
AT 30 JUNE 2015**

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XI. EXPLANATIONS ON ASSETS HELD FOR RESALE AND FIXED ASSETS FROM DISCONTINUED OPERATIONS AND LIABILITIES RELATED WITH THESE ASSETS

According to TFRS 5, non-current asset classified as held for sale (or group of assets to be disposed) is measured by the lowest of book value or sales costs discounted fair value. An asset to be held for sale asset (or group of assets to be disposed) it is necessary that, the related asset has to be commonly seen on the sales of these kind of sales assets, it could be easily immediately sold in the frame of usual conditions and it has to have high sales probability. For the high sales probability, there has to be a plan regarding the sales of asset made by the appropriate management level and by the determination of buyers there has to be an active program started regarding to completion of the plan.

Assets held-for-resale consist of tangible assets that were acquired due to non-performing receivables, and are accounted in the financial statements in accordance with the "Communiqué Regarding the Principles and Procedures for the Disposals of Immovable and Commodities Acquired due to Receivables and for Trading of Precious Metal" published in the Official Gazette dated 1 November 2006, No. 26333.

A discontinued operation is a part classified as discarded or held for sales by the bank. Results regarding to discontinued operations are presented individually in income statement.

The Bank has no discontinued operations.

XII. EXPLANATIONS ON GOODWILL AND OTHER INTANGIBLE ASSETS

Intangible assets are measured at cost on initial recognition and any directly attributable costs of setting the asset to work for its intended use are included in the initial measurement. Subsequently, intangible assets are carried at historical costs after the deduction of accumulated amortization and the provision for value decreases, if any.

Intangibles are amortised over their estimated useful lives of three to five years using the straight-line method. The useful life of the asset is determined by assessing the expected useful life of the asset, technical, technological and other kinds of obsolescence and all required maintenance expenses necessary to utilise the economic benefit of the assets.

The Bank expects no change with respect to accounting estimates, amortization period, amortization method, or residual value that will have significant impact on the current or the following periods.

Computer software development expenses that add to the economic benefit and extend the useful life of the software are capitalised. These expenses are amortised over the remaining useful life of the related intangible asset using "the straight-line method".

**PASHA YATIRIM BANKASI A.Ş.
NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS
AT 30 JUNE 2015**

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XIII. EXPLANATIONS ON PROPERTY AND EQUIPMENT

Property and equipment is measured at its cost when initially recognised and any directly attributable costs of setting the asset in working order for its intended use are included in the initial measurement. Subsequently, property and equipment are carried at cost less accumulated depreciation and provision for value decrease, if any. Depreciation is calculated over the cost of property and equipment using the straight-line method. The depreciation rates are stated below:

Office machine, furniture, leasehold improvements and vehicles	3-10 years
----------------------------------------------------------------	------------

The depreciation charge for items remaining in property and equipment for less than an accounting period at the balance sheet date is calculated in proportion to the period the item remained in property and equipment.

Where the carrying amount of an asset is greater than its estimated “recoverable amount”, it is written down immediately to its “recoverable amount” and the provision for the diminution in value is charged to the income statement.

Property and equipment are not subject to valuation such that fair value is presented in the financial statements.

Gains and losses on the disposal of property and equipment are determined by deducting the net book value of the property and equipment from its sales revenue.

Expenditures for the regular repair and maintenance of property and equipment are recognised as expense. The capital expenditures made in order to increase the capacity of the tangible asset or to increase its future benefits are capitalised on the cost of the tangible asset. The capital expenditures include the cost components which are used either to increase the useful life or the capacity of the asset, or the quality of the product or to decrease the costs.

There is no pledge, mortgage or commitment on the Bank’s property and equipments.

The Bank expects no change with respect to accounting estimates that have significant impact on the current period or may have significant impact on the following periods.

XIV. EXPLANATIONS ON LEASING TRANSACTIONS

Assets acquired under finance lease agreements are capitalised at the inception of the lease at the “lower of the fair value of the leased asset or the present value of the amount of cash consideration given for the leased asset”. Leased assets are included in the property and equipment and depreciation is charged on a straight-line basis over the useful life of these assets. If there is any diminution in value of the leased asset, a “Provision for value decrease” is recognised. Liabilities arising from the leasing transactions are included in “Financial Lease Payables” on the balance sheet. Interest and foreign exchange expenses regarding lease transactions are charged to the income statement.

The Bank has no finance lease agreements where the Bank is the leaser.

NOTES TO UNCONSOLIDATED FINANCIAL STATEMENTS
AT 30 JUNE 2015**

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XV. EXPLANATIONS ON PROVISIONS AND CONTINGENT COMMITMENTS

Provisions and contingent liabilities except for the financial instruments within the scope of the TAS 39 or the provisions recognised in accordance with the TAS 12 and TAS 19 are accounted in accordance with the “Turkish Accounting Standard for Provisions, Contingent Liabilities and Contingent Assets” (“TAS 37”).

Provisions are recognised when the Bank has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount of the obligation can be made. The provision for contingent liabilities arising from past events should be recognised in the same period of occurrence in accordance with the “Matching principle”. When the amount of the obligation cannot be estimated and there is no possibility of an outflow of resources from the Bank, it is considered that a “Contingent” liability exists and it is disclosed in the related notes to the financial statements.

XVI. EXPLANATIONS ON CONTINGENT ASSETS

Contingent assets usually arise from unplanned or other unexpected events that give rise to the possibility of an inflow of economic benefits to the entity. Contingent assets are not recognised in financial statements since this may result in the recognition of income that may never be realised. Contingent assets are disclosed where an inflow of economic benefits is probable. Contingent assets are assessed continually to ensure that developments are appropriately reflected in the financial statements. If it has become virtually certain that an inflow of economic benefits will arise, the asset and the related income are recognised in the financial statements in which the change occurs.

XVII. EXPLANATIONS ON OBLIGATIONS RELATED TO EMPLOYEE RIGHTS

Obligations related to employee termination and vacation rights are accounted for in accordance with “Turkish Accounting Standard for Employee Rights” (“TAS 19”) and are classified under “Reserve for Employee Rights” account in the balance sheet. Under the Turkish Labour Law, the Bank is required to pay a specific amount to the employees who have retired or whose employment is terminated other than the reasons specified in the Turkish Labour Law. The reserve for employment termination benefits represents the present value of the estimated total reserve for the future probable obligation of the Bank arising from this liability.

According to TAS 19 that is revised by Public Oversight Accounting and Auditing Standards Authority with the Communiqué published in Official Gazette on 12 March 2013 numbered 28585, in the calculation of the employment termination benefit liabilities of the Bank, the recognition option of the actuarial gains and losses derived from the changes in actuarial assumptions or the differences between actuarial assumptions and realizations in the income statement has been eliminated which is effective for annual periods beginning on or after 1 January 2013. The earlier application of the revision is permitted in the section of the transition and effective date of the standard and therefore the Bank has recognised the actuarial gains and losses that occur in related reporting periods in the “Statement of Income and Expense Items Accounted in Equity” and represented in the Prior Periods’ Income/ (Loss) item in the Shareholders Equity section.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XVIII. EXPLANATIONS ON TAXATION

a. Current Tax:

Many clauses of Corporate Tax Law No. 5520 ("Tax Law") which are valid starting from 1 January 2006, were taken into effect after being published in the Official Gazette dated 21 September 2006 No. 26205. According to the Tax Law, the corporate tax rate in Turkey is payable at the rate of 20% since 1 January 2006. The corporate tax rate is calculated on the total income of the Bank after adjusting for certain disallowable expenses, exempt income (such as capital gains derived from the sale of equity investments) and other allowances. No further tax is payable unless the profit is distributed.

Dividends paid to non-resident corporations, which have a place of business in Turkey or to resident corporations are not subject to withholding tax. Otherwise, dividends paid are subject to withholding tax at the rate of 15%. An increase in capital via issuing bonus shares is not considered as profit distribution and thus does not incur withholding tax.

Corporations are required to pay advance corporate tax quarterly at a rate of 20% on their corporate income. Advance tax is declared by the 14th and paid by the 17th day of the second month following each calendar quarter end. Advance tax paid by corporations which is for the current period is credited against the annual corporation tax calculated on their annual corporate income in the following year. Despite the offset, if there is temporary prepaid tax remaining, this balance can be refunded or used to offset any other financial liabilities to the government.

A 75% portion of the capital gains derived from the sale of equity investments and immovable properties held for at least two years is tax exempt, if such gains are added to paid-in capital or held in a special account under shareholder's equity for five years.

Under the Turkish Corporate Tax Law, losses can be carried forward to offset against future taxable income for up to five years. Losses cannot be carried back to offset profits from previous periods.

In Turkey, there is no procedure for a final and definitive agreement on tax assessments. Tax returns are required to be filled and delivered to the related tax office until the evening of the 25th of the fourth month following the balance sheet date. Tax returns are open for five years from the beginning of the year following the date of filing during which period the tax authorities have the right to audit tax returns, and the related accounting records on which they are based, and may issue re-assessments based on their findings.

b. Deferred Tax:

The Bank calculates and accounts for deferred income taxes for all temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in these financial statements in accordance with "Turkish Accounting Standard for Income Taxes" ("TAS 12"). In the deferred tax calculation, the enacted tax rate, in accordance with the tax legislation, is used as of the balance sheet date.

Deferred tax liabilities are recognized for all resulting temporary differences whereas deferred tax assets resulting from temporary differences are recognized to the extent that it is probable that future taxable profit will be available against which the deferred tax assets can be utilized.

The calculated deferred tax asset and deferred tax liability are presented as net in these financial statements.

(Amounts are expressed in thousands of Turkish Lira (“TL”) unless otherwise stated.)

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

c. Transfer Pricing:

The article 13 of the Corporate Tax Law describes the issue of transfer pricing under the title of “Disguised profit distribution” by way of transfer pricing. “The General Communiqué on Disguised Profit Distribution by Way of Transfer Pricing” published at 18 November 2007, explains the application related issues on this matter.

According to this Communiqué The Bank is required to fill out Transfer Pricing form, if the taxpayers conduct transactions like purchase and sale of goods or services with the related parties as well as the methodology of the transfer pricing.

XIX. EXPLANATIONS ON BORROWINGS

Trading and derivative financial liabilities are valued with their fair values and the other financial liabilities are carried at “amortised cost” using the effective interest method.

The Bank utilises various hedging techniques to minimise the currency, interest rate and liquidity risks of its financial liabilities.

XX. EXPLANATIONS ON ISSUANCE OF SHARES CERTIFICATES

Transaction costs regarding the issuance of share certificates are accounted under shareholders’ equity after eliminating the tax effects. Dividend payments are determined by the General Assembly of Bank.

The Bank has not issued any share certificates.

No dividend payments were announced after the balance sheet date.

XXI. EXPLANATIONS ON AVALIZED DRAFTS AND ACCEPTANCES

Avalized drafts and acceptances shown as liabilities against assets are included in the “Off-balance sheet commitments”. The Bank has no avalized drafts and acceptances shown as liabilities against assets.

XXII. EXPLANATIONS ON GOVERNMENT GRANTS

As of 30 June 2015 and 31 December 2014, the Bank has no government grants.

XXIII. EXPLANATIONS ON PROFIT RESERVES AND PROFIT DISTRIBUTION

Retained earnings as per the statutory financial statements other than legal reserves are available for distribution, subject to the legal reserve requirement referred to below. Under the Turkish Commercial Code (“TCC”) the legal reserves are composed of first and second reserves. The TCC requires first reserves to be 5% of the profit until the total reserve is equal to 20% of issued and fully paid-in share capital. Second reserves are required to be 10% of all cash profit distributions that are in excess of 5% of the issued and fully paid-in share capital. However holding companies are exempt from this application. According to the Turkish Commercial Code, legal reserves can only be used to compensate accumulated losses and cannot be used for other purposes unless they exceed 50% of paid-in capital.

EXPLANATIONS ON ACCOUNTING POLICIES (Continued)

XXIV. EXPLANATIONS ON EARNINGS PER SHARE

Earnings per share are calculated by dividing net profit for the year to the weighted average number of shares outstanding during the period concerned. Earnings per share disclosed in the income statement are calculated by dividing net profit for the year to the weighted average capital outstanding during the period concerned.

In Turkey, companies can increase their share capital by making a pro-rata distribution of shares (“bonus shares”) to existing shareholders from retained earnings. For the purpose of earnings per share computations, the weighted average number of shares outstanding during the year has been adjusted in respect to bonus shares issued without a corresponding change in resources by giving them a retroactive effect for the year in which they were issued and for each earlier period. Where the number of outstanding shares increase due to distribution of bonus shares after the balance sheet date but before the release of the financial statements, earnings per share computations are performed based on the revised average number of shares.

XXV. EXPLANATIONS ON RELATED PARTIES

For the purpose of these financial statements, shareholders, senior management members and board members together with their families and companies controlled by/affiliated with them, and associated companies and joint ventures are considered and referred to as related parties in accordance with “Turkish Accounting Standard for Related Parties” (“TAS 24”). The transactions with related parties are disclosed in detail in Section Five.

XXVI. EXPLANATIONS ON CASH AND CASH EQUIVALENTS

For the purposes of the preparation of statement of cash flows, “Cash” includes cash, effectives, and cash in transit, purchased cheques and demand deposits including balances with the Central Bank; and “Cash equivalents” include interbank money market placements and time deposits at banks with original maturity periods of less than three months.

XXVII. EXPLANATIONS ON SEGMENT REPORTING

Information on operational fields which are determined in accordance with the Bank’s organisational and internal reporting structure and the requirements of “Turkish Accounting Standards on Segment Reporting” (“TAS 14”) is disclosed in Section Four.

XXVIII. RECLASSIFICATIONS

To conform to presentation of 30 June 2015 unconsolidated financial statements, some reclassifications can be made on comparative 31 December 2014 unconsolidated financial statements.

SECTION FOUR

INFORMATION RELATED TO FINANCIAL POSITION

I. EXPLANATIONS ON CAPITAL ADEQUACY RATIO

- a. As of 30 June 2015, the capital adequacy ratio of the Bank is 176.21% (31 December 2014: 135.43 %).

Capital Adequacy Standard Ratio is calculated in accordance with "Communiqué on Measurement and Assessment of Capital Adequacy of Banks ", "Communiqué on Credit Risk Mitigation Techniques", "Communiqué on Calculation of Risk Weighted Amounts for Securitizations" published on 28 June 2012 and Official Gazette numbered 28337 and "Communiqué on Equities of Banks" published on 1 November 2006 in the Official Gazette numbered 26333.

"Simple financial guarantee method" has been used in the calculation of the amount subject to credit risk. Amount subject to market risk has been calculated with "Standard method". Amount subject to operational risk is calculated yearly, on previous three years' gross income.

- b. **Information related to capital adequacy ratio:**

INFORMATION RELATED TO FINANCIAL POSITION (Continued)

g. Information on applied approaches in order to evaluate internal capital adequacy in terms of future and current activities

The Bank, has created "Capital Requirements Internal Assessment Process (Evaluation Process)" to identify and assess the risks exposed or may be exposed in the future, to provide adequate capital to cover the risks in question and to monitor the risks and the development of proper risk management techniques for managing the risk and in order to ensure the application. As stated in "Regulation on Internal Systems of Banks" Article No. 45, Risk Management is responsible for the planning and implementation of the Evaluation Process. For the most appropriate scope and approach to the Evaluation Process, in necessary cases, Risk Management, Internal Audit, Internal Control, Operations and Treasury departments can include their contributions in the process. The evaluation process is risk-oriented, including the quantifiable and unquantifiable risks, future-directed and creates a clear correlation between the types of risks and the necessary capital. Types of risks considered in the evaluation process are included in the evaluation report.

II. EXPLANATIONS ON MARKET RISK

Market risk is followed under two headings: market risk arising from trading activities and market risk arising from banking transactions. The basic principle of market risk management is creating a compliant asset / liability structure and providing protection by averting differences with derivative instruments when necessary.

By the Board of Directors, market risk limits introduced by the minimization of the risks involved were targeted. Defined risk limits are reviewed by the Board of the Directors in 3 month period and updated if necessary. "Standard method" is used in the measurement of market risk in the extent of capital adequacy ratio. Value of the securities portfolio at risk is monitored and is reported to senior management on a monthly basis.

The below table represents the details of the market risk calculation in accordance with the "Regulation Regarding Measurement and Evaluation of Banks' Capital Adequacy Ratio", section three "Calculation of Market Risk with Standard Method".

a. Information on Market Risk:

	30 June 2015	31 December2014
(I) Capital to be Employed for General Market Risk - Standard Method	20	-
(II) Capital to be Employed for Specific Risk -Standard Method	-	-
Capital requirement against Specific Risks of Securitisation Positions– Standard Method	-	-

INFORMATION RELATED TO FINANCIAL POSITION (Continued)

IV. EXPLANATIONS ON CURRENCY RISK

The Bank's foreign currency position is managed within the limits set by legislation and the Bank. The basic principle in foreign currency risk management is not to be exposed to currency risk. Accordingly, the exchange-trading risk positions are not allocated to the limit, banking accounts as of the currency by creating a matched asset-liability structure is aimed to provide natural protection. The Bank uses derivative financial instruments such as forward foreign exchange contracts and currency swaps for hedging purposes in foreign currency denominated transactions.

Bank's methodology of digitising the foreign currency position includes the use of standard method when calculating the capital adequacy ratio and application of internal stress tests/ sensitivity analysis.

The Bank's publicly announced foreign exchange bid rates as of the date of the financial statements and for the last five business days prior to that date:

	ABD Doları		EURO	
	30 June 2015	31 December 2014	30 June 2015	31 December 2014
Bid Rate	2.6850	2.3269	2.9982	2.8272
1. Bid rate	2.6863	2.3189	2.9822	2.8207
2. Bid rate	2.6857	2.3235	2.9777	2.8339
3. Bid rate	2.6638	2.3182	2.9813	2.8255
4. Bid rate	2.6770	2.3177	3.0003	2.8368
5. Bid rate	2.6710	2.3209	3.0017	2.8312

The simple arithmetic average of the Bank's foreign exchange bid rates for the last thirty days preceding the balance sheet date:

	ABD Doları		EURO	
	30 June 2015	31 December 2014	30 June 2015	31 December 2014
Arithmetic average - 30 days	2.6984	2.2917	3.0280	2.8231

INFORMATION RELATED TO FINANCIAL POSITION (Continued)

V. EXPLANATIONS ON INTEREST RATE RISK

Interest rate risk is the risk that expresses the effects of fluctuations in the market interest rates on the value increase/decrease of the Bank's interest rate sensitive assets and liabilities.

The interest rate sensitivity of Assets, Liabilities and Off-balance sheet items is carefully followed up by the treasury department of the Bank. Assets and liabilities which are sensitive to interest are managed in such a way that minimizes the interest risk.

The interest rate risk of the banking items is measured legally in accordance with the "Regulation on Measurement and Assessment of Standard Shock Method on the interest rate risk arising from banking accounts", and this legal limit is monitored and reported monthly, based on this measurement.

Interest rate sensitivity of the Bank:

a. Interest rate sensitivity of assets, liabilities and off-balance sheet items based on repricing dates

INFORMATION RELATED TO FINANCIAL POSITION (Continued)

VII. EXPLANATIONS ON LIQUIDITY RISK

Liquidity risk is the risk arising from not having adequate cash or not having adequate cash inflows to fund cash outflows on time due to the imbalance of cash flows.

Treasury Department, manages liquidity of the group on a daily basis, and informs the asset-liability committee every week about the Bank's liquidity level. Planning the liquidity management for weekly, monthly, yearly periods, taking the necessary measures and informing the senior management about these is the responsibility of the treasury.

The Bank forms its assets and liabilities in balance in order not to create a negative space in the cumulative basis in the maturity periods.

In accordance with the "Regulation on Measurement and Assessment of Liquidity Adequacy of the Banks", which came into effect after its publication in the Official Gazette numbered 26333 on 1 November 2006 by BRSA, weekly simple arithmetic average of total liquidity adequacy ratio related to the first maturity period, and total liquidity adequacy ratio related to the second maturity period cannot be less than a hundred percent; weekly simple arithmetic average of the foreign currency liquidity adequacy ratio related to first maturity period, and foreign currency liquidity adequacy ratio related to second maturity period cannot be less than eighty percent as of 1 June 2007.

a. Liquidity ratios realized in the current period

	First Maturity Tranche (Weekly)		Second Maturity Tranche (Monthly)	
	FC	FC +TL	FC	FC +TL
30 June 2015				
Average (%)	6,594	5,490	4,152	4,821
Maximum (%)	22,221	24,685	54,473	41,234
Minimum (%)	120	787	88	957

	First Maturity Tranche (Weekly)		Second Maturity Tranche (Monthly)	
	FC	FC +TL	FC	FC +TL
31 December 2014				
Average (%)	5,531	1,489	5,697	1,963
Maximum (%)	31,527	7,206	41,911	8,164
Minimum (%)	88	288	83	296

According to the declaration carried off by Banking Regulation and Supervision Agency dated and numbered as 29/12/2014-30223, with respect to the 5th line of article 4 of the Declaration of Banks' Coverage Rate Calculation, it is announced that consolidated and non-consolidated total and FX liquidity coverage rates for development and investment banks must be applied as 0% until 2016.

IX. EXPLANATIONS ON THE CREDIT RISK MITIGATION TECHNIQUES

Bank calculates the credit risk with simple financial guarantee method in accordance with "Communique on Credit Risk Mitigation Techniques". The collaterals to be considered in credit risk mitigation should be compatible with the currency and maturity.

The main collateral type that can be considered as a risk mitigation technique according to the communiqué is a real estate mortgage, which is planned to be taken by the Bank. Other main collateral types that the Bank receives in the lending process are customer checks and notes which are not taken into account according to "Communique on Credit Risk Mitigation Techniques".

	Amount (*)	Financial Guarantees	Other /Material Guarantees	Guarantees and Loan Derivatives

(Amounts are expressed in thousands of Turkish Lira ("TL") unless otherwise stated.)

INFORMATION RELATED TO FINANCIAL POSITION (Continued)

X. EXPLANATIONS ON RISK MANAGEMENT OBJECTIVES AND POLICIES

Compliance with the Banking Law and the relevant law regulated under the "Regulation on Internal Systems of Banks", in a separate organisational structure, by creating a direct reporting line to the board of directors and audit committee, the complete independence of the risk management unit from the operations is the fundamental principle

Risk limits are in the responsibility of risk management unit and are determined by the board.

The Bank developed a systemic borrower rating model to measure risk exposure levels at customer level through quantitative and qualitative analysis. An internally developed transaction rating system is used to evaluate the repayment capacity of the loan.

Against concentration risk, information on the borrower / group, industry, collateral, etc. are traced on the monthly credit risk report and presented to the board of directors.

Application of stress tests on currency risk and liquidity positions and calculation of the interest rate risk is carried by the risk management department.

Within the scope of operational risk, activities of identification, calculation, monitoring, control and reporting of operational risks undertaken by the Bank are performed.

XI. EXPLANATIONS ON THE ACTIVITIES CARRIED OUT ON BEHALF AND ACCOUNT OF OTHER PERSONS:

The Parent Bank mediates transactions such as trading of capital market instruments, repurchase and resale commitments which is in the scope of Capital Markets Board licence for the date 25.11.1999 and BNK/ASA-BD.0081 number.

The Parent Bank has no trust transactions.

(Continued)**

k. Information on the collection policy of non-performing loans and other receivables and information on the write-off policy of the Bank:

Non-performing loans and other receivables are collected through legal follow-up and liquidation of collaterals. Credits that have become losses in nature, are attached to the certificate of insolvency or insufficient collateral document, and written off from the Bank's assets. However, if the Bank's receivable is an insignificant amount compared to the costs and expenses to be incurred for the preparation of said documents, writing off of assets may be performed if the Board of Directors decides so.

5. Information on held-to-maturity investments:

None (31 December 2014: None).

6. Information on investments in associates:

None (31 December 2014: None).

7. Information on subsidiaries (Net):

a. Recognition of subsidiaries:

Explained in the Section Three.

b. Information on the equity of subsidiaries
